1 Introduction: who are the addressees of the Code and who is MINIFABER S.p.A

The Code applies to all members of the Board of Directors and managers of MINIFABER S.p.A. (henceforth also “MINIFABER” or the “Company”) and to MINIFABER’s full-time and part-time employees. The Code also applies to all temporary employees and other persons and enterprises acting in the name and on behalf of MINIFABER, anywhere in the world. All the above entities constitute together MINIFABER’s people.

MINIFABER operates abroad in many Countries and, therefore, in different legal contexts. Moreover, company employees may be subject to additional rules and regulations imposed by their direct employer. MINIFABER acknowledges the diversity and complexity of the rules and regulations that apply to the conduct of MINIFABER’s people and considers that the Code does not conflict with the spirit of such rules. Nevertheless, any clarification on situations of potential conflict with the rules envisaged by the Code of Ethics can be requested from the MINIFABER Whistleblowing Manager (email: odv@minifaber.com).

MINIFABER strives to ensure that the Code is considered a “*best practice*” and is also complied with by those with whom it has long-term business relationships, such as suppliers, dealers, consultants and agents.

MINIFABER was founded in 1960 in Villa di Serio (BG) and over the years has specialised in the cold working of sheet metal and in the design and construction of moulds, becoming an international leader in this sector.

From the design to semi-finished or finished product phases, MINIFABER has mastered the technologies and skills necessary to carry out each single production process in-house: from design to feasibility studies, prototyping and small and large series production. This means customers can rely on a supplier that optimises production time and costs.

The complexity of the situations in which MINIFABER operates, the challenges of sustainable development and the need to take into consideration the interests of all people having a legitimate interest in the corporate business (“Stakeholders”), strengthen the importance to clearly define the values that MINIFABER accepts, acknowledges and shares as well as the responsibilities it assumes, contributing to a better future for everybody.

For this reason MINIFABER’s Code of Ethics (“Code” or “Code of Ethics”) has been established. Compliance with the Code by MINIFABER’s directors, statutory auditors, management and employees as well as by all those who operate in Italy and abroad for achieving MINIFABER’s objectives (“MINIFABER’s People”), each within their own functions and responsibilities, is of paramount importance - also pursuant to legal and contractual provisions governing the relationship with MINIFABER - for MINIFABER’s efficiency, reliability and reputation, which are all crucial factors for its success and for improving the social situation in which the Company operates.

MINIFABER undertakes to promote awareness of the Code among MINIFABER’s People and the other Stakeholders and their constructive contribution to its principles. MINIFABER undertakes to take into account any suggestions and observations by the Stakeholders, with the aim of confirming or supplementing the Code.

MINIFABER carefully checks for compliance with the Code by providing suitable information, prevention and control tools and ensuring transparency in all transactions and behaviours by taking corrective measures if and as required. The Supervisory Body of the Company performs the functions of guarantor of the Code of Ethics (“Guarantor”).

The Code is brought to the attention of every person or body having business relations with MINIFABER.

2 General principles: sustainability and corporate responsibility

Whenever someone works on behalf of MINIFABER, or interacts with other MINIFABER entities, they must comply with the provisions of the Code. Within the limits of local legislation, all members of the MINIFABER workforce must be aware that they represent the Company when they carry out their activities, even outside working hours, in a manner where they act or they are understood to act as a representative of MINIFABER. The conduct of each individual person reflects on the external reputation of the Company and its internal culture.

MINIFABER strives to create an environment that promotes values and encourages an ethical conduct, so as to create a collaborative working environment in which the dignity of each individual is respected. We expect all directors, employees, contractors, customers and suppliers to comply with all aspects of the Code and all applicable laws and regulations. All members of MINIFABER must treat others as they expect to be treated, including customers and other external parties engaging in working relationships with the company.

Not only are they expected to know and comply with the Code, but they are strongly encouraged to promptly report any conduct that is not in accordance with the essence and spirit of the Code, regardless of whether the conduct in question infringes the law or not. We also expect people to take a rapid and firm stand against violations of our Code, asking questions and seeking assistance. If they believe that the reports have not been adequately addressed or the response is not received in a timely manner, they should continue to raise the issue and, where necessary, use one of the other channels provided to report the problem.

Compliance with the law, regulations, statutory provisions, ethical integrity and fairness, is a constant commitment and duty of all MINIFABER's People, and characterises the conduct of the entire organisation.

MINIFABER's business and corporate activities have to be carried out in a transparent, honest and fair way, in good faith, and in full compliance with competition protection rules.

MINIFABER is committed to maintaining and strengthening a governance system that complies with *international best practice standards*

that can handle the complex operating situations and the challenges they face.

Systematic methods for involving Stakeholders are adopted, fostering dialogue on sustainability and corporate responsibility.

The creation of a sustainable culture requires effective risk management, and responsible, proactive and innovative decision-making. Our efforts minimise negative impacts on natural resources and the global environment. In particular, MINIFABER considers that environmental protection is a decisive aspect to be promoted in the overall approach to business. MINIFABER is committed to constantly improving the environmental performance of its operations and to complying with the provisions of the laws and regulations in force.

In addition, MINIFABER is committed to manufacturing and marketing, in full compliance with the provisions of the laws and regulations in force, products that meet the highest standards in terms of environmental performance and safety, and to develop and put in place innovative technical solutions to minimise environmental impact and maximise safety. To conclude, it encourages the safe and ecological use of our products.

In conducting both its activities as an international company and those with its partners, MINIFABER stands up for the protection and promotion of human rights, inalienable and fundamental prerogatives of human beings and basis for the establishment of societies founded on principles of equality, solidarity, repudiation of war, and for the protection of civil and political rights, of social, economic and cultural rights and the so-called third generation rights (self-determination right, right to peace, right to development and protection of the environment).

Any form of discrimination, corruption, forced or child labour is rejected. Particular attention is paid to the acknowledgement and safeguarding of the dignity, freedom and equality of human beings, to protection of labour and of the freedom of trade union association, of health, safety, the environment and biodiversity, as well as the set of values and principles concerning transparency, energy efficiency and sustainable development, in accordance with International Institutions and Conventions.

In this respect MINIFABER operates within the reference framework of the United Nations Universal Declaration of Human Rights, the Fundamental Conventions of the ILO - International Labor Organization - and the OECD Guidelines on Multinational Enterprises.

All MINIFABER's People, without any distinction or exception whatsoever, respect the principles and contents of the Code in their actions and behaviours while performing their functions and according to their responsibilities, because compliance with the Code is fundamental for the quality of their working and professional performance. Relationships among MINIFABER's People, at all levels, must be characterised by honesty, fairness, cooperation, loyalty and mutual respect.

The belief that one is acting in favour or to the advantage of MINIFABER can never, in any way, justify – not even in part – any behaviours that conflict with the principles and contents of the Code.

3 Behaviour rules and relations with Stakeholders

3.1 Ethics, transparency, fairness, professionalism

In conducting its business, MINIFABER is inspired by and complies with the principles of loyalty, fairness, transparency, efficiency and an open market, regardless of the importance level of the transaction in question.

Any action, transaction and negotiation performed and, generally, the conduct of MINIFABER's People in the performance of their duties is inspired by the highest principles of fairness, completeness and transparency of information and legitimacy, both in form and substance, as well as clarity and truthfulness of all accounting documents, in compliance with the applicable laws in force and internal regulations.

All MINIFABER's activities have to be performed with the utmost care and professional skill, with the duty to provide skills and expertise adequate to the tasks assigned, and to act in a way capable to protect MINIFABER's image and reputation. Without prejudice to the compliance with applicable laws and obligations, corporate objectives, as well as the proposal and implementation of projects, investments and actions, have to be aimed at improving the company's assets, management, technological and information level in the long term, and at creating value and welfare for all Stakeholders. Bribes, illegitimate favours, collusion, requests for personal benefits for oneself or others, either directly or through third parties, are prohibited without any exception.

It is prohibited to pay or offer, directly or indirectly, money and material benefits and other advantages of any kind to third parties, whether representatives of governments, public officers and public servants or private employees, in order to influence or remunerate the actions of their office.

Commercial courtesy, such as small gifts or forms of hospitality, is only allowed when its value is small (amounts not exceeding €50.00) and it does not compromise the integrity and reputation of either party, and cannot be construed by an impartial observer as aimed at obtaining undue advantages. In any case, these expenses must always be authorized by the designated managers as per existing internal rules, and be accompanied by appropriate documentation.

It is forbidden to accept money from individuals or companies that have or intend to have business relations with MINIFABER. Anyone who receives proposals of gifts or special or hospitality treatment that cannot be considered as commercial courtesy of small value, or requests therefore by third parties, shall reject them and immediately inform their superior, or the body they belong to, as well as the Guarantor.

MINIFABER shall properly inform all third parties about the commitments and obligations provided for in the Code, require third parties to respect the principles of the Code relevant to their activities and take proper internal actions and, if the matter is within its own competence, external actions in the event that any third party should fail to comply with the Code.

3.2 Relations with shareholders

3.2.1 Value for shareholders, efficiency, transparency

The internal structure of MINIFABER and the relations with the parties directly and indirectly taking part in its activities are organised according to rules able to ensure management reliability and a fair balance between the management's powers and the interests of shareholders and of the other Stakeholders in general as well as transparency and market traceability of management decisions and general corporate events.

Within the framework of the initiatives aimed at maximizing the value for shareholders and at guaranteeing transparency of the management's work, MINIFABER defines, implements and progressively adjusts a coordinated and homogeneous set of behaviour rules

concerning both its internal organizational structure and relations with shareholders and third parties, in compliance with the highest corporate governance standards at national and international level, based on the awareness that the company's capacity to impose efficient and effective functioning rules upon itself is a fundamental tool for strengthening its reputation in terms of reliability and transparency as well as Stakeholders' trust.

MINIFABER deems it necessary that shareholders are enabled to participate in decisions which come within the limits of their competence and make informed choices. MINIFABER therefore undertakes to ensure maximum transparency and timeliness of information communicated to shareholders.

These relations have to be exclusively dealt with by the departments and individuals specifically appointed to do so, in compliance with approved plans and corporate procedures.

It is forbidden to make, induce or encourage false statements to Authorities. Any behaviour other than that defined by this Code of Ethics shall not be tolerated.

3.3.2 Political organisations and trade unions

MINIFABER undertakes to respect the right of consumers not to receive products harmful to their health and physical integrity and to request information on the basis of the purposes of the finished product in which MINIFABER products shall be installed as components to respect the rights of end consumers.

MINIFABER acknowledges that the esteem of those requesting products or services is of primary importance for success in business. Business policies are aimed at ensuring the quality of goods and services, safety and compliance with the precautionary principle. Therefore, MINIFABER's People shall:

The remuneration to be paid shall be exclusively proportionate to the services to be rendered and described in the contract and payments shall not be allowed to any party different from the contract party nor in a third Country different from the one of the parties or where the contract has to be performed.

¹ Pursuant to the above prohibition, the term Third countries shall not apply to the Countries where a company/institution, counterparty to MINIFABER, has established its central treasury and/or where it has established, in whole or in part, its headquarters, offices or business units that are functional and necessary for the performance of the contract, notwithstanding, in any case, any additional controls required by internal regulatory instruments regarding the selection of counterparties and the execution of payments.

5 Code of Ethics scope of application and reference structures

The principles and contents of the Code apply to MINIFABER's People and activities.

Directors and management must be the first to give concrete form to the principles and contents of the Code, by assuming responsibility for them both towards the inside and the outside and by enhancing trust, cohesion and a sense of team-work, as well as providing a behaviour model for their collaborators in order to have them comply with the Code and make questions and suggestions on specific provisions.

To achieve full compliance with the Code, each Person may, in addition to his or her own direct superior, contact the "Whistleblowing" manager (email: odv@minifaber.com).

The Code is made available to MINIFABER's People in compliance with applicable standards, and is also available on the MINIFABER intranet site.

Each of MINIFABER's People is expected to know the principles and contents of the Code as well as the reference procedures governing own functional activities and responsibilities.

Each of MINIFABER's People shall:

MINIFABER is committed, also with the appointment of the “Whistleblowing” manager and the Supervisory Body, to ensuring:

The Code of Ethics is, among other things, a compulsory general principle of the Organisational, Management and Control Model adopted by MINIFABER according to the Italian provision on the “administrative liability of legal entities deriving from offences” envisaged by Legislative Decree no. 231 of 8 June 2001.

MINIFABER assigns the functional activities of Guarantor to the Supervisory Body established pursuant to the

above-mentioned Model. The Guarantor is entrusted with the task of:

- promoting awareness of the Code of Ethics also through communication programs and specific training of MINIFABER management and employees;
- investigating reports of any alleged violation of the Code by initiating proper inquiry procedures; taking action at the request of MINIFABER's People in the event of receiving reports that violations of the Code have not been properly dealt with or in the event of being informed of any retaliation against MINIFABER's People for having reported violations;
- notifying relevant structures of the results of investigations relevant to the adoption of possible penalties; informing the relevant line/area structures about the results of investigations relevant to the adoption of the necessary measures.

Moreover, the Guarantor of MINIFABER submits to the Board of Statutory Auditors, the CEO and the Board of Directors, a six-monthly report on the implementation and activities performed and any possible need for updating the Code.

In carrying out its tasks, the Guarantor of MINIFABER avails itself of the “Secretariat of the Supervisory Body 231 of MINIFABER S.p.A.” which reports to it. The Secretariat is supported by the competent structures of MINIFABER and, also, activates and maintains an adequate flow of reporting and communication with the relative company departments.

Each information flow to the Guarantor may be sent to the following email address: odv@minifaber.com.

The proposal is made taking into consideration the Stakeholders' evaluation with reference to the principles and contents of the Code, promoting active contribution and notification of possible deficiencies by Stakeholders themselves.
